Pipeline

hi guys 3melt he la farjikon kif badde yemcho el codet wara ba3ed 😀
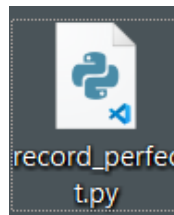

1- download the youtube video that you will give the link to

2- seperate the vocals from the accompaniments (we will use both of them !!!!)

3- you will run this so you can record your own song exactly aligned with this code (you will hear the vocals form your headphones and sing along)

4- you will take the recording put it in this code which will aligne the singn (revoir ana chelet 0.3 seocnd la2anno ken m2a55ar) it will put it to the perfect volume , will remove harshness.... and remove noises w hek 5bar (!!!! hon kamen it will take the original vocals !)

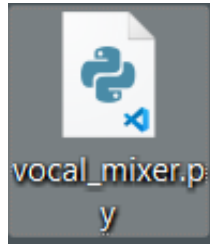

5- for some reason byerrja3 bi dall fi noise fa mnerja3 men chilon marra tenye fa mnerja3 men remove them w mna3melo a7sn

6- ba3den hon men fawto bel model for pitch correction (not perfect yet for later!!!)

7- halla2 finally we will combine the accompaniments (azde el bachround music nzidon 3a our singing)

NB: its done bas badde chil kam cha8le menno ma elon 3aze bas zabet !!!

w done ❤️
